***Allowable Subject Matter***

**Claims 1-13** are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 13, the references of record either individually or in combination do not teach or suggest a solder layer having a "relative density *before melting* that is at least 80% and no more than 99.9% of the theoretical density."

Although the claim is directed towards a product, and *before melting* is a product-by-process limitation, it has been given patentable weight in accordance with MPEP 2113 and *In re Garnero*, 412 F.2d 276, 279, 162 USPQ 221, 223 (CCPA 1979) because the process would impart distinctive structural characteristics to the final product, such as improved bonding strength (Specification, page 3 lines 17-22 and page 20 lines 19-22).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Colleen A. Matthews whose telephone number is 571-272-1667. The examiner can normally be reached on Monday - Friday 8AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on 571-272-1869. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
